<b>Total # of Interviewees.....</b>	<b>55</b>

**WABE Internship Program**

The WABE internship program enables High School students, College students (regardless of classification), and recent graduates of universities to gain real world experience in areas of broadcasting. As interns, students will work in a specified area of their interest. The experience that our internship program provides (depending on the area for which a student may participate in) can be in the form of research, journalism, administrative, technical, professional writing, etc. to be used for school credit or not. Internships are offered throughout the year and lasts no longer than a 9-month period.

Methods of recruitment are as follows:

- Posting internship opportunities on local college and university camps websites
- Emailing/faxing internship opportunities to local college and universities.
- Contacting employment services/departments within local colleges and universities.
- Posting opportunities on WABE website.

Interns must complete the application process, show some experience in desired area of interest as a skill requirement to be considered for an open internship. The application, along with a resume and references, need to be submitted to WABE. The application will be evaluated by the Manager of the department that the applicant is applying for. After a round of interviews, the WABE Manager will select the best candidate(s) to receive an internship based on the eligibility requirement and qualifications.
