

WABE

Source Tracking

January 1-March 31, 2026

Source tracking at WABE

To measure how representative our sources are in comparison to metro Atlanta's population, WABE tracks the demographics for guests in WABE host interviews on Morning Edition, All Things Considered and Closer Look, and the sources in news features.

We compare the data we collect to information compiled by the Atlanta Regional Commission and the Census Reporter.

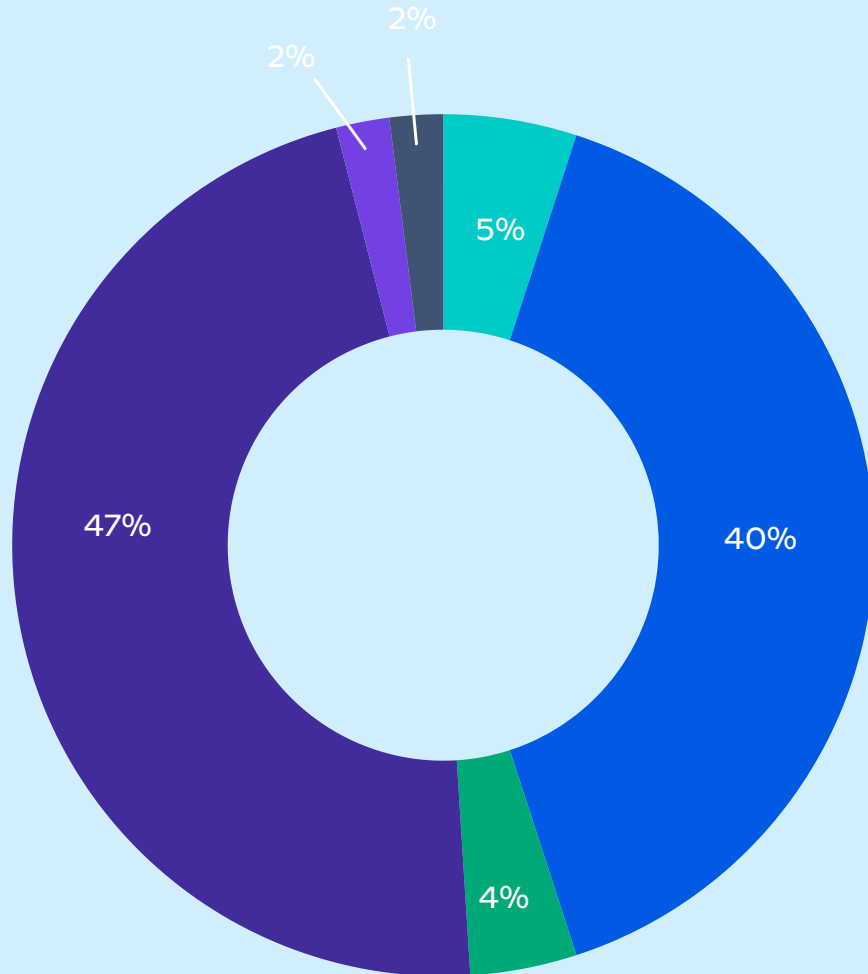

Metro Atlanta race profile

ARC 21-county data for 2023
